

PRO•ZIN 150

Zinc EDTA Mixture

Zinc (Zn) 15.0%

Derived from: Zinc Sulfate, Ethylenediamine Tetraacetate (EDTA)

PRO•ZIN 150 is a **NEW** high performance zinc micronutrient fertilizer partly chelated with EDTA for the prevention or cure of zinc deficiencies in all horticultural and agricultural crops.

MIX WITH WATER BEFORE COMBINING OTHER CHEMICALS

DIRECTIONS FOR USE

Field Crops-Small grains, peanuts, legumes, potatoes, corn and cotton:

Foliar: 1-2 lbs. Per acre- apply early in the growing season (pre-root) before deficiency symptoms have a chance to occur.

Soil: 2-4 lbs. Per acre-apply pre-plant and incorporate, most common application method is with pre-plant herbicide.

Pasture and Turf:

Soil test and apply as recommendations require.

Citrus and Other Fruit Crops:

Foliar: 1 ½ -2 ½ lbs. per acre. Apply to new flush of growth in the spring. Repeat when necessary but avoid spraying during blossom and just before harvest.

Pecans:

Foliar: 1-2 lbs. per acre. Apply as a thorough cover spray soon after bloom. Repeat twice at two week intervals.
